

# PRIVACY & DECORATIVE FILM

## 3mil Whiteout

PA-07WO-i

Opalux® 3mil Whiteout films are used to give two-way 24-hr privacy, particularly when low light transmissions are required. This film has a satin white finish and can be applied to most new or existing glass.

This Opalux® 3mil Whiteout is a quick and easy solution for installations where all vision through the glass needs to be controlled but where a small proportion of natural light is required. This product has been successfully used where a white appearance is required to create a lighter atmosphere than a blackout however vision and light needs to be controlled. This whiteout film offers 24-hr privacy and blocks out most daylight or artificial light through the window or lightbox, and has an opaque appearance. This blackout product also provides additional benefits, such as uniform outside appearance, and as with most Opalux films up to 99% ultra-violet light (UV) filtering.

### FEATURES

- Low light transmission
- Quick, retro-fit installation
- Maximum Glare Rejection
- Screening of harmful UV rays

### BENEFITS

- Prevents vision through the glass both ways, increasing security and privacy
- Introduce screening and privacy when and where it is required; ideal for glazing in rooms with a temporary change of use
- Reduces the premature fading of interior furnishings
- Helps alleviate the discomfort caused by excessive glare
